

# Monthly Update

## Fund commentary

- Crown - taking our chips off the table
- ANZ's redeeming features redeemed
- Reminder - 2018 PM Capital Adviser Forum

We sold our Crown debt during the month. Crown has been selling assets aggressively lately and using cash to effectively reduce its debt to zero. While it will have to borrow to fund its Sydney casino over the next few years, we find the extent to which James Packer has de-risked the business odd, and suspect he may have bigger plans including potential privatisation. Having generated over a 20% return for the Fund, our Crown debt has been a great investment and with the risk/ reward proposition having changed considerably in our view, it no longer represents an anomaly.

As expected, ANZ announced its intention to redeem the listed ANZPC hybrid during the month (final redemption

1/3/18). This was the last of ANZ's hybrids with a more favourable security structure for investors, and with a ~5% pa yield from our purchase date, we are sorry to see it go.

Finally, a reminder that our annual PM Capital Adviser Forum is fast approaching and registrations are filling up quickly. This year Paul and I will be focussing on investing through market inflection points, and navigating higher interest rates over the longer term. Please contact your local Sales Director for details, or register at

PM Capital Limited, founded in 1998, is a globally-focussed fund manager that invests money on behalf of private clients, the clients of financial advisers and institutions. PM Capital's goal is to build long term wealth by investing in global markets with patience and conviction.

### Investment philosophy

We aim to build long term wealth together with our co-investors by finding and exploiting investment anomalies around the world. Using a focused, patient and considered approach to finding simple investment ideas produces the best environment for creating that long term wealth.

Our experience has shown us that while the market is largely efficient, it can, and regularly does, misprice a small proportion of companies. This mispricing can arise as a result of any number of reasons, but is most often associated with disruptive or cyclical change, new information which is misunderstood by the market as having a permanent impact when it is in fact transitory, or just because they are operating in a sector out of favour with investors.

Our unique process is based on scanning the world for those companies (hence the radar in our logo), discovering the associated valuation anomalies and extracting value from them. We buy good businesses at a good price; businesses that we believe are being valued differently to their long term intrinsic value, but will return to their correct value over time.

### Who manages the investment?

Jarod Dawson is the Portfolio Manager and has been managing the portfolio since 2004. Assisted by John Whelan, together they have over 30 years' combined industry experience. Jarod and John are also supported by the broader investment team, with Paul Moore as CIO who has over 30 years' experience in successfully managing investment funds.

### Why the Enhanced Yield Fund?

**Dependable:** A minimum 20% cash position helps the Fund to preserve capital and achieve its return objectives with low volatility. The Fund's process is effective and repeatable, based on a proven philosophy. This Fund has been producing attractive returns for co-investors for more than 15 years, and is one of the longest running yield funds of its kind.

**Careful:** We have an authentic investment process where our exposure to industry sectors, geographic regions or market capitalisation is determined solely by our conviction in individual risk/reward opportunities that we identify. All holdings within the Fund have been intensively researched by our investment team. No conviction = no investment.

**Co-investment:** Our co-investors receive access to a unique subset of opportunities which they would otherwise find difficult to replicate. PM Capital and some of its staff have meaningful investments in the Fund - they invest for and with you.

## Key Company Details

### Fund category

Fixed income

### Investment style

Fundamental, bottom-up-research intensive approach

### Inception date

1 March 2002

### Fund size

\$473.8 million

### Strategy size

\$698.9 million

### Minimum direct investment

\$20,000

### Recommended investment time

Two years plus

### Fees (p.a.)

Management fee: 0.55%.

Performance fee: 25% of net excess above RBA Cash Rate (subject to a high watermark)

### Buy / sell spread

0.2% (Round trip)

### Investor profile

The Fund may be appropriate for investors seeking capital preservation and potential return in excess of the Reserve Bank of Australia's (RBA) cash rate with a low degree of volatility

## Important Notice

This Report is issued by PM Capital Limited ABN 69 083 644 731 AFSL 230222 as responsible entity for the PM Capital Enhanced Yield Fund (ARSN 099 581 558, the 'Fund'). It contains summary information only to provide an insight into how we make our investment decisions. This information does not constitute advice or a recommendation, and is subject to change without notice. It does not take into account the objectives, financial situation or needs of any investor which should be considered before investing. Investors should consider a copy of the Product Disclosure Statement which available from us, and seek their own financial advice prior to investing. The PDS explains how the Fund's Net Asset Value is calculated. Past performance is not a reliable guide to future performance and the capital and income of any investment may go down as well as up. The investment objective is not a forecast, and is only an indication of what the investment strategy aims to achieve over the medium to long term.

1. Returns are calculated from exit price to exit price assuming the reinvestment of distributions for the period as stated and represent the combined income and capital return. The Index is RBA Cash Rate. See [www.rba.gov.au](http://www.rba.gov.au) for further information.
