

Monthly Update

Fund commentary

- Market questions the business environment and impact of the trade war
- The positive effects of alternative asset manager conversions to corporations continue to occur as expected

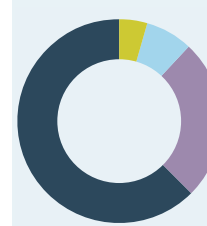

Market sentiment weakened in May amid concerns over US/ China trade negotiations and fears of weakening global economic activity. As a consequence, during the month the US yield curve was inverted, with three-month treasuries yielding more than ten-year treasuries, while German ten-year bunds hit record lows and are trading on negative yields. Of the larger countries, Switzerland and Japan's ten-year government bond yields are also in negative territory.

Amid this backdrop our banking and property-related stocks traded lower, as did our Macau

casino names. However, sharp drawdowns in certain resources names provided an opportunity to build our positions at lower prices.

Ares Management had a strong month, up 5.1%, as funds under management grew at over 20% year-on-year and the conversion from a limited partnership to a corporation continues to drive passive investors into the stock. We believe we are midway through this passive buying given the full legal conversion only happened in late 2018 and it may take up to a year for the respective indices to add the stock.

PM Capital Limited, founded in 1998, is a globally-focussed fund manager that invests money on behalf of private clients, the clients of financial advisers and institutions. PM Capital's goal is to build long term wealth by investing in global markets with patience and conviction.

Investment philosophy

We aim to build long term wealth together with our co-investors by finding and exploiting investment anomalies. Using a focused, patient and considered approach to finding simple investment ideas produces the best environment for creating that long term wealth.

Our experience has shown us that while the market is largely efficient, it can, and regularly does, misprice a small proportion of companies. This mispricing can arise as a result of any number of reasons, but is most often associated with disruptive or cyclical change, new information which is misunderstood by the market as having a permanent impact when it is in fact transitory, or just because they are operating in a sector out of favour with investors.

Our unique process is based on scanning the world for those companies (hence the radar in our logo), discovering the associated valuation anomalies and extracting value from them. We buy good businesses at a good price; businesses that we believe are being valued differently to their long term intrinsic value, but will return to their correct value over time.

Who manages the investment?

The investment team is led by founder and CIO Paul Moore who has over 32 years experience in successfully managing investment funds. Paul Moore, the Portfolio Manager for this Fund is supported by a team of experienced investment analysts.

Further Information

www.pmcapital.com.au T: +612 8243 0888 E: pmcapital@pmcapital.com.au

We believe in being a patient investor, one that has conviction, one that finds opportunities where others can only see risk. We only invest in what we know, deeply, via our fundamental research.

Why the Global Companies Fund?

Established: The Fund's process has been shown to be effective, based on a philosophy developed by Paul Moore, over 32 years. This has produced attractive long term capital growth.

Unrestricted: We have an authentic investment process where our exposure to industry sectors, geographic regions or market capitalisation is determined solely by our conviction in the risk/reward opportunities that we identify within portfolio guidelines. No conviction = no investment.

Opportunistic and focused: The Fund is not built around a general market benchmark or index - it is highly focused based on our fundamental, bottom-up investment process. As a guide, the Fund holds around 25 - 45 deeply researched stocks that we believe give the best opportunity to produce strong long term returns.

Co-investment: Our co-investors receive access to a unique subset of opportunities to which they would otherwise find difficult to access. The management team have significant investments in the Fund - they invest for and with you.

Outperformance: The Fund *has outperformed the relevant market index by 268% since inception*. The Fund is managed from an Australian investor's perspective with consideration for tax and currency outcomes.

Key Fund Details

Fund category

Global equities

Investment style

Fundamental, bottom-up research intensive approach

Inception date

28 October 1998

Fund size

\$421.3Million

Strategy size

Investor profile

The Fund may be appropriate for investors seeking capital appreciation over a seven plus year investment horizon

Important Notice

This Report is issued by PM Capital Limited ABN 69 083 644 731 AFSL 230222 as responsible entity for the PM Capital Global Companies Fund (ARSN 092 434 618, the 'Fund'). It contains summary information only to provide an insight into how we make our investment decisions. This information does not constitute advice or recommendations, and is subject to change without notice. It does not take into account the objectives, financial situation or needs of any investor which should be considered before investing. Investors should consider a copy of the current Product Disclosure Statement which is available from us, and seek their own financial advice prior to investing. The PDS explains how the Fund's Net Asset Value is calculated. Past performance is not a reliable guide to future performance and the capital and income of any investment may go down as well as up due to various market forces. The investment objective is not a forecast, and is only an indication of what the investment strategy aims to achieve over the medium to long term. 1. Returns are calculated from exit price to exit price assuming the reinvestment of distributions for the period as stated and represent the combined income and capital return. The Index is the MSCI World Net Total Return Index in Australian dollars, net dividends reinvested. See www.msci.com for further information on the Index.

A higher standard in performance fee hurdles

From 1 December 2018, PM Capital has implemented an additional performance fee hurdle for the Global Companies Fund¹.

In doing this, the net effect is that performance fees on the Fund will be reduced, given performance of the Fund must now exceed the greater of the two (dual) benchmark hurdles as opposed to the previous single hurdle.

While the prior RBA cash rate performance fee benchmark must still be exceeded, a second benchmark, the MSCI World Net Total Return Index (AUD) ("MSCI"), must also be exceeded before a performance fee can be paid.

Rather than choosing between an "absolute" (ie, the RBA cash rate) and "relative" (ie, the MSCI) hurdles, PM Capital is providing investors the best of both worlds.

More information from our CIO

Pro-forma ICR

The benefit for our co-investors

We believe the Fund's dual performance fee hurdle will provide a meaningful future net performance benefit for our co-investors, as performance fees on the Fund will be reduced.

Even prior to the fee change, the Fund has registered attractive long term outperformance, having delivered a total return since inception of 426% compared to the MSCI's 158%.

The Fund's actual performance has been:

Global Companies Fund performance (net of fees)	Inception Date	Exit Price (\$)	1 Month	3 Months	6 Months	1 Year	3 Years pa	5 Years pa	7 Years pa	10 Years pa	Since Inception pa	Since inception - total
Fund performance (actual)	10-1998	2.8896	-6.7%	-2.2%	3.5%	-2.6%	8.4%	10.5%	17.8%	12.7%	8.4%	425.9%
MSCI World Net Total Return Index (AUD)			-4.3%	1.5%	6.9%	8.9%	10.6%	12.0%	15.8%	11.6%	4.7%	158.4%
Outperformance (actual)			-2.4%	-3.7%	-3.4%	-11.5%	-2.2%	-1.5%	2.0%	1.1%	3.7%	267.5%

To give a tangible indication of the benefits of the fee structure change, the table below provides the historic adjusted performance of the Fund *assuming the new dual hurdle fee structure had been in place since inception*²:

Global Companies Fund pro forma illustrative performance (net of fees)	Inception Date	Exit Price (\$)	1 Month	3 Months	6 Months	1 Year	3 Years pa	5 Years pa	7 Years pa	10 Years pa	Since Inception pa	Since inception - total
Fund performance (pro forma)³	10-1998	2.8896	-6.7%	-2.2%	3.5%	-1.9%	10.0%	12.8%	21.1%	15.1%	10.6%	693.0%
MSCI World Net Total Return Index (AUD)			-4.3%	1.5%	6.9%	8.9%	10.6%	12.0%	15.8%	11.6%	4.7%	158.4%
Outperformance (pro forma)			-2.4%	-3.7%	-3.4%	-10.8%	-0.6%	0.8%	5.3%	3.5%	5.9%	534.6%

1. Applies to the unlisted unit trust only. 2. These returns do not represent the actual net Fund performance, but, are provided to indicate impact on past investment returns if they were adjusted to take into account the new fee structure. 3. Pro forma Fund performance has been calculated based on the new fee structure (implemented 1 December 2018), assuming it had applied from the Fund's inception. These returns do not represent the actual net Fund performance and are included for illustrative purposes only.
